

**Welcome to the 2023-24 membership year.  
Registration opens June 1st.**

**The WFSC Board wants to say, “Thank you” to all our members for making this such a great year and making a profit possible. As a result of that profit, we are NOT INCREASING our prices for the 2023-24 season!**

**NEW THIS YEAR:**

**Make sure you’re aware of WFSC’s NEW volunteer policy.** WFSC is entirely volunteer run, we need help. Requirements and requests are in place based on your level of membership. We are offering varying levels of buy-out, but do encourage as much in-person involvement as possible. The policy is available on our website under ABOUT US -> Bylaws and Policies

**There are Two New(ish) Non-Skating Categories.** In an effort to ease registration confusion we’ve introduced the Edge Team/Costume Lead category. This category is reserved for those who will be assisting with costumes and are required to have a USFS membership for Safe Sport. The next is a revision of Friends of WFSC; these members will receive emails from the club listing events and other opportunities they can volunteer at or be involved in some way. They do not receive a USFS membership.

**REMINDERS:**

**List your most often checked email when registering in Entryeze,** that email address will receive all club emails containing information about tests, competitions, meetings, volunteer opportunities, or fun activities set by the WFSC Board or Junior Board.

**IF you change your email address at any point during the season,** you must inform the WFSC Membership Chair, [wfscmembers@gmail.com](mailto:wfscmembers@gmail.com), so that changes can be made in our communication systems, such as Entryeze or Constant Contact.

The WFSC is not responsible for any emails or information not received by members who fail to do this.

**REGISTRATION EXAMPLES:**

**IF you've never registered with a club before:** make sure to select, **INTRODUCTORY!!**

**IF you're renewing your membership, or have been registered with a club before:**

A family with **one skater:** will **register as a Home membership under the skater's name;** this can also cover the cost of a parent (but not register with USFS unless they need to for WFSC or Edge purposes)

A family with **two skaters:** the **first skater** will register for a **Home membership** under their name. The **second** is a **Subsequent membership**, they will **register under their own name**. A parent can still be covered (see family with one above)

\*\* Families with more skaters will proceed as above, adding as many subsequent memberships as needed.

If you've volunteered to be an **Edge Team/Costume Lead:** The skater(s) will register as above, the "parent/guardian" will select this new category at no cost

Families with **one skater** and a **parent on a WFSC or Edge board:**

Proceed as a family with one skater, see above. **The parent will register as a Board membership**, you should have a credit in your account.
